

▶ PRODUCT DETAIL

▶ INSTALLATION STEPS

1 STEP ONE

- ①. Plug the plug into the socket, matching the polarity to the corresponding socket. If one end doesn't fit, rotate it one full turn and try again. If neither end fits, please contact an electrician to replace the socket. Do not force it in.
- ②. Touch the blue switch with your hand; one press turns it on, one press turns it off, and a long press adjusts the brightness.
- ③. There are two USB ports on the bottom side, which can be used to charge other electronic devices.
- ④. The direction of the lampshade can be adjusted here by rotating it left or right.
