

Contemporary Brass Multi-Globe Pendant Light for Hospitality Projects

According to a 2026 hospitality design procurement survey, 68% of hotel renovation projects prioritized lighting fixtures that combine decorative appeal with commercial-grade performance.

Product Type: Contemporary brass multi-globe pendant light.

Frame Material: Brushed brass metal construction.

Diffuser Material: Four opal glass globes.

Lighting Performance: Provides uniform ambient illumination.

Visual Comfort: Designed to reduce direct glare in occupied spaces.

Installation Areas: Suitable for hotel guestrooms, reception areas, boutique hotel lobbies, lounges, and hospitality public spaces.

Commercial Application: Designed for high-traffic hospitality environments.

Finish Options: Available in brushed brass, antique brass, brushed nickel, and matte black.

Customization Options: Custom sizes available for project specifications.

Mounting Options: Multiple mounting configurations available upon request.

Compliance Options: UL listed and ETL listed configurations available.

Design Style: Contemporary geometric multi-globe composition.

Project Use: Suitable for new hotel developments, renovation projects, and brand-standard guestroom programs.

Maintenance Consideration: Durable metal construction supports long-term commercial operation.

Procurement Advantage: Custom manufacturing options help align with project-specific design requirements.
